virtual reality. A significant contribution to studies of horror cinema and film/media franchising from the 1930s to the present day, this book will be of interest to students and scholars of film studies, media and cultural studies, franchise studies, political economy, audience/reception studies, horror studies, fan studies, genre studies, production cultures, and film histories.

"Throughout history, the religious imagination has attempted to control nothing so much as our bodies: what they are and what they mean; what we do with them, with whom, and under what circumstances; how they may be displayed-or, more commonly, how they must be hidden. Religious belief and mandate affect how our bodies are used in ritual practice, as well as how we use them to identify and marginalize threatening religious Others. This book examines how horror culture treats religious bodies that have stepped (or been pushed) out of their 'proper' place. Unlike most books on religion and horror, This book explores the dark spaces where sex, sexual representation, and the sexual

body come together with religious belief and scary stories. Because these intersections of sex, horror, and the religious imagination force us to question the nature of consensus reality, supernatural horror, especially as it concerns the body, often shows us the religious imagination at work in real time. It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction, but considers a wide range of material, including literary horror, weird fiction, graphic storytelling, visual arts, participative culture, and aspects of real-world religious fear. It is less concerned with horror as a genre (which is mainly a function of marketing) and more with the horror mode, a way of storytelling that finds expression across a number of genres, a variety of media, and even blurs the boundary between fiction and non-fiction. This expanded focus not only deepens the pool of potential examples, but invites a much broader readership in for a swim"--

Christianity is a global phenomenon that has affected the lives of millions of people and expressed itself in many ways over the centuries. Often these expressions have been at odds with the core values of the gospel and teachings of Jesus. Imperialism, colonization, anti-Semitism, racism, misogyny--to name but some issues--have all been associated with this religion almost from the outset. They are part of a legacy that we can no longer evade in the face of the many questioning voices of the modern world. But how has this curious and conflicted situation come about? And did Jesus even intend to found a new religion? Drawing on modern scriptural studies, current academic thinking, and several

decades of personal religious and monastic life the writer seeks to find answers, examining the historical record of the past two millennia. In a world that is increasingly secular and skeptical of religious claims the answer to how the Christian legacy is to be presented in a post-Christian world is crucial for the future and the challenge this book seeks to address.

This book uses history and the Bible to offer a fresh and scriptural interpretation of passages of the Bible which for centuries remained a mystery to the student of Bible prophecy, including "Mystery, Babylon the great, the mother of harlots and of the abomination of the earth". I will explore the myths and deception of Roman Catholicism and their direct connection with the idolatrous worship system of the Mother and Child of ancient Babylon. The claims that Roman Catholicism is the only true Church of Christ on Earth and the claim that man can't find salvation apart from her is the greatest deception the world has ever known. Centuries of moral crisis and sexual abuse of children speak volumes about the true nature of the leaders of the Catholic Church. The abhorrence of marriage and the

negative view of women recorded in the Canon Laws clearly reflect the Vatican's Gnostic belief on sexual intercourse and the imposition of celibacy. Many people throughout the world equate "Christianity" with everything that is vile, contemptible and depraved. For centuries the Roman C. Church suppressed basic human rights and also persecuted and murdered anyone who held beliefs which conflicted with the dogma of the church. During the horrors of the "Inquisition" tens of thousands of people were tortured, dismembered, beaten, and burned alive, all in the name of a fraudulent faith. Roman Catholicism is the false representation of truth and also the cause great many people throughout history have repudiated true Christianity. The history of crimes the papacy has committed throughout history is so compelling that it would inevitably lead any objective thinker to the conclusion that throughout the history of the world there hasn't been any other organization as notorious as the Roman C. Church. The long history of cruelty, crimes and immorality that for centuries the church of Judas has committed on every generation, provides irrefutable proof that she is not of God.

Are You Too Moral to Be Catholic?: An Expos Wildside Press LLC

Life is at once wonderful and appalling, beautiful and horrific. Although we can all give meaning to our lives by trying to live well, is there some given meaning to be discovered? Science cannot answer this question, and philosophical arguments leave the issue open. The monotheistic religions claim that the

meaning has been revealed to us, and Christians see this is above all in the life, death and resurrection of Jesus. Described by Rowan Williams as 'that rarity, a Christian public intellectual', Richard Harries considers the Christian claim in the context of an in-depth discussion of the nature of evil and how this is to be reconciled with a just and loving God. Drawing on a wide range of modern literature, he argues that belief in the resurrection and hope in the face of death is fundamental to faith, and suggests that while there is no final intellectual answer to the problem of evil, we must all, believer and nonbeliever alike, protest against the world and seek to change it, rather than accept it as it is.

This book broaches the theme of the profanation of the Eucharist

in the very bosom of the Roman-Catholic Church in North America which has been going on for approximately a half century. The problem consists in pouring the remaining Eucharistic Blood of Christ into the sacrarium (a special sink usually located in the sacristy of the church) after the distribution of Holy Communion during Mass. The essence of the matter is that this practice is strictly prohibited in the Catholic Church, and those who pour the Consecrated Wine into the sacrarium incur an automatic penalty of excommunication reserved to the Apostolic See (Canon 1367 of the Code of Canon Law and Paragraph 107 of the instruction on the Eucharist *Redemptionis Sacramentum* issued by the Congregation for Divine Worship and the Discipline of the Sacraments). For Catholics, who believe in the real presence of the LORD Jesus Christ in the Eucharist, the aforementioned practice is a great liturgical and moral abuse. As a priest, I want to stir up the conscience of those who act contrary to the faith of the Catholic Church, and I dedicate the present book to this issue.

This early work by E. T. A. Hoffmann was originally published in 1814. Born in Königsberg, East Prussia in 1776, Hoffmann's family were all jurists, and during his youth he was initially encouraged to pursue a career in law. However, in his late teens Hoffman became increasingly interested in literature and philosophy, and spent much of his time reading German classicists and attending lectures by, amongst others, Immanuel Kant. Hoffman went on to produce a great range of both literary and musical works. Probably Hoffman's most well-known story, produced in 1816, is 'The Nutcracker and the Mouse King', due to the fact that - some

seventy-six years later - it inspired Tchaikovsky's ballet *The Nutcracker*. In the same vein, his story 'The Sandman' provided both the inspiration for Léo Delibes's ballet *Coppélia*, and the basis for a highly influential essay by Sigmund Freud, called 'The Uncanny'. (Indeed, Freud referred to Hoffman as the "unrivalled master of the uncanny in literature.") Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

The Complete Tales of Jules de Grandin, Volume One Simon and Schuster

When you think of saints, you envision stained-glass pictures of piety. But the truth can be horribly different. Consider Saint Pius V: As Grand Inquisitor, he sent Catholic troops to kill 2,000 Waldensian Protestants in southern Italy. After becoming pope, he sent Catholic troops to kill Huguenot Protestants in France. Pius also launched the final crusade against Muslims, sending a Christian naval armada to slaughter thousands in the Battle of Lepanto in 1571. And, he intensified the Roman Inquisition, torturing and burning Catholics whose beliefs varied from official dogma. After his death, Pius was canonized a saint. Heaven help us. *Holy Horrors* chronicles the grim spectrum of religious persecution from ancient times to the present, including such historic massacres as the Crusades, the Islamic jihads, the Catholic wars against heretics, the Inquisition, witch hunts, the Reformation, and such atrocities as the Holocaust, the seemingly insoluble Catholic-Protestant schism in Northern Ireland, religious tribalism in Lebanon, and the barbaric cruelty of the theocracy in

Iran. The antique woodcuts, paintings, prints, and contemporary photographs that illustrate the book are at once gruesome and riveting. At last, there is a book that crystallizes what so many have known in their hearts: religion is an incredibly divisive, destructive force. -Outposts
 Centuries of religious madness packed into one finely crafted, all-too-true horror story. -Playboy
 Probably the most comprehensive look ever taken at holy horrors, the book also deserves notice as an alternative history text. . . . Holy Horrors is not nice. But it contains facts which should not be forgotten or ignored. -Humanist News (Great Britain)

Conservative evangelicalism has transformed American politics, disseminating a sometimes fearful message not just through conventional channels, but through subcultures and alternate modes of communication. Within this world is a "Religion of Fear," a critical impulse that dramatizes cultural and political conflicts

and issues in frightening ways that serve to contrast "orthodox" behaviors and beliefs with those linked to darkness, fear, and demonology. Jason Bivins offers close examinations of several popular evangelical cultural creations including the Left Behind novels, church-sponsored Halloween "Hell Houses," sensational comic books, especially those disseminated by Jack Chick, and anti-rock and -rap rhetoric and censorship. Bivins depicts these fascinating and often troubling phenomena in vivid (sometimes lurid) detail and shows how they seek to shape evangelical cultural identity. As the "Religion of Fear" has developed since the 1960s, Bivins sees its message moving from a place of relative marginality to one of prominence. What does it say about American public life that such ideas of fearful religion and violent politics have become normalized? Addressing this question, Bivins establishes links and resonances between the cultural politics of evangelical pop, the activism of the New Christian Right, and the political exhaustion facing American democracy. Religion of Fear is a significant contribution to our understanding of the new shapes of political religion in the United States, of American evangelicalism, of the relation of religion and the media, and the link between religious pop culture and politics.
